

“A mind stretched by an idea can never go back to its original dimensions”

- ***Oliver Wendell Holmes***

The idea of starting my own consultancy firm stretched my mind, when my law results were announced in Summer 2000! But hailing from a middle class family where it is believed that, even if you had to rear cattle it's better to be a government shepherd, resigning the coveted(!) job of an Inspector of Central Excise is the toughest call of my life, then! More than convincing my wife, who married me because I was a government officer (hope she doesn't read this piece), my kith and kin, I had to convince myself! But, finally the stretched mind won, and **swamy associates** was born on 19th jan,2001!

The seed which was sown in 2001 has grown into a healthy sapling, which would not have been possible at all, without all of your blessings, love and support. Your absolute confidence on **swamy associates** had always been the pillar of strength upon which, we have grown strength to strength, all these years. The entire Team SA is extremely thankful to one and all for having reposed immense faith and the continued support given to us. While we have cherished every moment of your association with us, we also sincerely believe that you would have also had a similar experience.

Today, on the eve of the 10th birthday of **swamy associates**, the entire Team SA, resolve to re-dedicate ourselves to the profession, with extra zeal and absolute commitment.

“A heart stretched by a love can also never go back to its original dimensions”
